IN ONE WORK**

Brian.C Strong (b 1945) Born: 1945

His career has predominantly been as a tutor of art. Painting however has always been a large part of Brian Strong's life for over 45 years.

"Our New Zealand landscape is the inspiration behind my paintings. In recent work, the landscape is composed in such a way that it gives us several images within the space of the painting. Light, the pristine, clear, sharp contrast of the shapes in the sky, water, and natural land formations...all conspire to participate in the compositions."
