

KEYBOARD OR PIANO

A full sized keyboard has 88 notes. The black notes (sharps or flats) are arranged in groups of two, then three. The white note immediately before the pair of two blacks is called C. If it is in the middle of the keyboard, it is "middle c". Tunes are made from scales, which start off with C then the next 7 notes, D,E,F,G,A,B then the next higher C. From C to the next C is called an Octave, no Octopus, ah no..Octave. Yes that is it.

"SONG OF JOY"

(Or "Ode to Joy" Part of Beethovens 9th Symphony, based on a poem written by

By Beethoven

Beethoven

One person could play both hands at once, or one play thr treble clef (right hand) and another play bass clef (left hand). Another could play chords on ukulele or guitar.

The number tells you which finger to use.

Minims are 2 beats long
Crotchets are 1 beat long

Chords: C G C G

Bass Tones: C G C G
